

PECAT® 250mm Factory Entry Elbow

AG Series

APPLICATION

Provides a high strength transition fitting for connecting polyethylene gas pipe to a building via a steel 90° elbow and through wall pipe for an above ground connection.

DESCRIPTION

Comprising a PECAT® mechanical joint, factory assembled with straight length of PE pipe with a GRP protective cover sleeve, a through wall steel outlet with tight fit PE cover and a retaining clamp for tight fitment to the wall, terminating with a plain ended tube for on-site welding.

CONSTRUCTION

- Body (1), Sleeve (2) and Retaining Clamp (7): Steel
- Inlet Pipe (3) and Tight Fit PE cover (6): PE to GIS/PL2-2
- Cover Tube (4): GRP
- Cover Tube Support (5): EPDM Rubber
- Corrosion Protection: Zinc electrophoretic plating and Grey Polyester coating

SPECIFICATION

Meets GIS/PL3:2023 requirements, BSI Kitemark Certified – KM535530, Maximum Operating Pressure (MOP) = 2 bar.

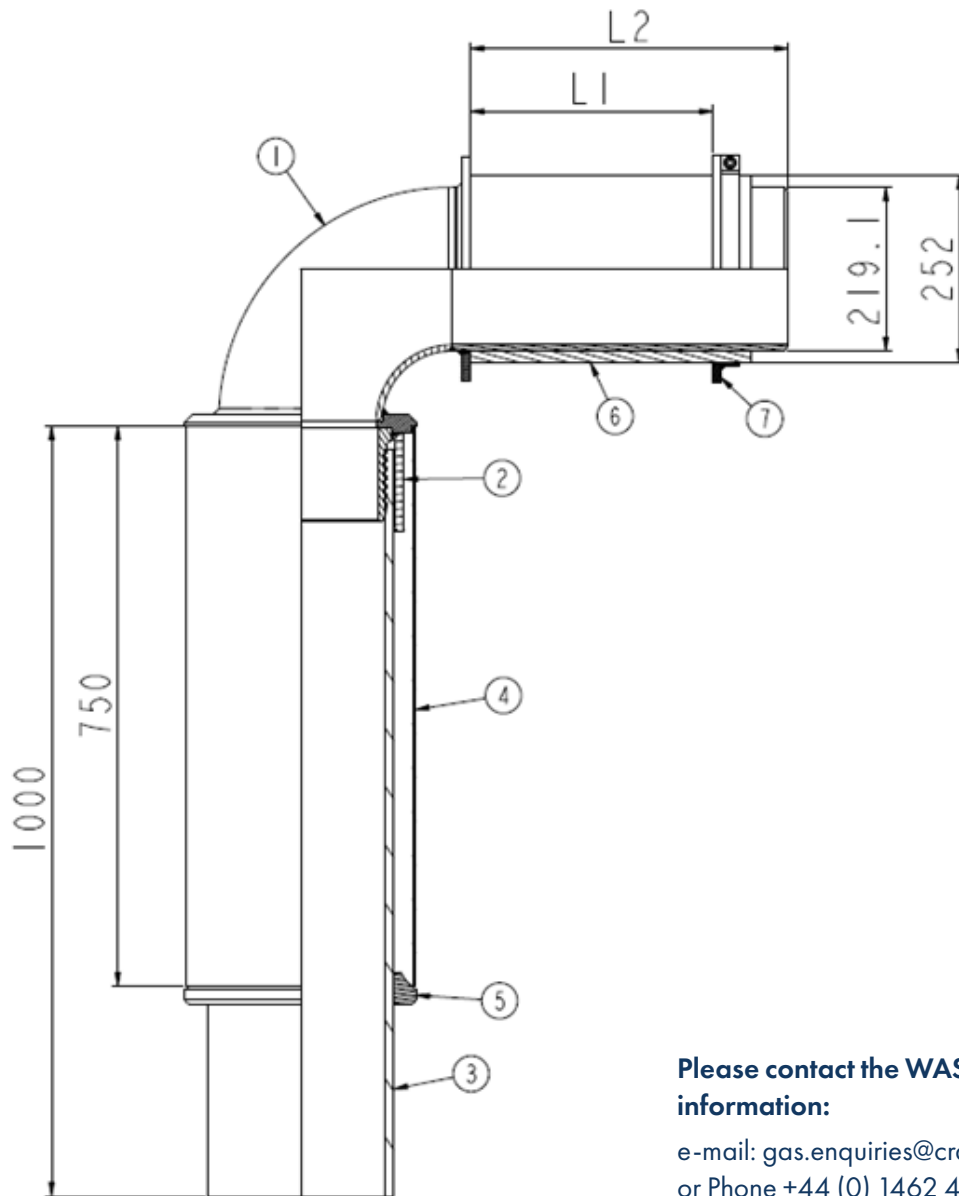

Item Code	L1	L2
AG2136	345	425
AG2137	500	580
AG2138	610	690

INSTALLATION

Factory Entry Elbows supplied suitable for site joining by electrofusion only. Adjustment to entry height can be made by cutting PE (3) and GRP (4) tubes on site, no adjustment on through wall length is possible, see table below for available through wall length options. Please refer to PE fitting manufacturer's instructions for details on electrofusion welding procedures.
